

# 2017 Fall Soccer Academy

## Schedule *(updated 9/8)*

The purpose of our soccer academy is to develop sound fundamentals among our younger players and prepare them to move up to the next level of play. We will accomplish this with drills that focus on improving balance and coordination as well as basic dribbling, passing and shooting.

We are expecting, as in past years, approximately 60 children to participate in the academy. The academy director is Lori Ruggieri, Head Coach of the

girls' varsity team at NMB High School. We will meet as a group at the beginning of the session and the academy director will briefly go over the day's goals. Then we will break up into smaller teams, each with their own coach. The coach will lead their team through a pre-planned set of drills and games.

We welcome the assistance of any parents, anything from helping chase balls to giving praise for good effort by the kids. Please remember that the Soccer Academy is set up to be a FUN introduction to the game of soccer. Our goal is that the children have so much fun that they want to come back, week after week and year after year.
